## RACK KIT 113-150

CODE	NAME	MODEL
100.4151130	KIT 113-150	24Vac
164.4151130	KIT 113-150	9Vdc

The Rain valve box rack allows the installer to configure the valve box contents conveniently at the workbench. It optimizes the space inside the valve box. The rack is also designed for the installation of the manifold system on the walls of technical rooms: it is equipped with 4 holes to fix the manifold to the wall.

The pre-assembled 113 Rack Kit with 4 RN 150 solenoid valves speeds up the installation time of the valve box and reduces system maintenance time, as well as keeping the valve box clean and tidy at all times. In addition to the 113 rack and 4x150 1" MxUN solenoid valves, the kit includes a 4-outlet Manifold, a cap, and the positioning grid. Compatible with the EZ-Open PZRM 113 valve box with patented handle. Ideal for systems with flow rates from 10 l/min to 25 l/min.

### TECHNICAL FEATURES

- Solenoid type: 24 Vac - normally closed, 9 Vdc - latching
- Minimum pressure: 1 bar
- Maximum pressure: 12 bar
- Minimum operating flow rate: 20 l/min
- Maximum operating flow rate: 90 l/min
- Minimum operating temperature: 4°C
- Maximum operating temperature: 70°C
- Diaphragm type: In co-molded parts
- Manufacturing material: Glass fiber PA 6 30%
- Manual opening
- Solenoid inrush absorption 24 Vac: 0,43 A
- Absorption at solenoid maintenance 24 Vac: 0,21 A

### KIT COMPONENTS

- 1 Grid 113 | 2 Grid hooks | 1 Manifold 1" PVC 4-way | 1 PVC 1" cap | 4 RN 150 1" MxUN solenoid valves
