### PRODUCT DETAILS

#### PRODUCT DESCRIPTION AND SPECIFICS

##### Speedeo connect: the right speed any time, from anywhere

With Speedeo Connect, you can easily enjoy your autonomous and smart pool!

Speedeo Connect controls your variable speed pump, your lighting or your pool heating.

It can adjust the filtration time depending on the water temperature and therefore improve the water quality. It also has a freeze protection function, which is very practical in winter if your pool is in active wintering mode.

And thanks to its WiFi connection, you can now access, control or modify these parameters from anywhere. So wherever you are, you are reassured and fully in control of your pool.

Speedeo Connect connects directly via WiFi or Lora (Long range radio) thanks to the Pentair Gateway (sold as an option) when the WiFi is not available close to your pool room.

##### Soleo connect: skilful control of your water treatment system, even from afar!

Do you already have an installed Soleo solution? If so, why not combine it with Speedeo Connect and the chemical parameters of the water will be automatically regulated and accessible remotely on your smartphone.

Speedeo Connect can be purchased alone, with the Soleo, as Soleo Connect or even with the Soleo Connect e-Box, offering you a complete and easy-to-install smart solution.

### APPLICATIONS

Private Swimming pool

#### CUSTOMER BENEFITS AND CORRESPONDING TECHNICAL FEATURES

Consumers benefits	Corresponding technical features
Always clear water	Controls the variable speed pump and adapts the filtration time according to the water temperature
Easy to connect and to control your pool remotely	Either directly via Wi-Fi, or with the Pentair Gateway option. Controls filtration, lighting and heating control
Easily scalable to fit all pools	Just add a Soleo to it to manage the water treatment (also remotely)

### MARKETING AND DISTRIBUTION DETAILS

#### TRADEGRADE

All SKU's of this product are part of TradeGrade. TradeGrade is a range of products, which are sold exclusively to PIP members. The aim is to protect professionals against online retailers and simple competition on discount prices. With TradeGrade, pool professionals are rewarded with specific benefits, such as higher PIP point rewards when scanning the PIP code with the Pentair Scan App.

#### PARTNER INCENTIVE PROGRAMME (PIP)

This product is part of the PIP programme. The PIP code on the product can be scanned with the Pentair Scan App to get instantaneous access to various collaterals, such as product brochures, user manuals, spare part lists, troubleshooting and how-to videos. A warranty extension can be activated from the App, whilst a co-branded warranty certificate can be sent to your customers.

#### INCOTERMS

Please note the following preferential sales modalities:

- CPT Romentino for EU-27 customers.
- FCA Romentino for non EU-27 customers.
