

## Stainless Steel Maintenance Spray

User instruction: Shake can well before use. Hold the spray head in the direction of the arrow, vertically at a distance of approx. 25-30 cm from the component and spray a thin and even layer onto the component. Wipe well with a dry, soft cloth until all stains, streaks, etc. are removed. When cleaning stainless steel and other materials for the first time, remove the coarse dirt from the surfaces to be cleaned beforehand.

Fields of application: • Protects and preserves all metal surfaces • Provides a streak-free, shining brilliancy • The treated surface is protected against rapid re-soiling and stained appearance • Removes and prevents fingerprints • Makes water roll off • Can be used in private pool areas, bathrooms, kitchens, industrial facilities

Warning: Extremely flammable aerosol. Container is under pressure: May burst when heated.

Safety Instructions: Keep out of the reach of children. Keep away from heat/sparks/open flames/hot surfaces and other sources of ignition. Do not smoke. Do not pierce or burn, even after use. Do not spray against naked flame or other source of ignition. Protect from sunlight and do not expose to temperatures exceeding 50°C/122° F.

Disposal information: Dispose of contents/container in accordance with local/regional/national/international regulations.
