

SLATTED COVERS

CHOOSE THE RIGHT
**AUTOMATIC SAFETY SLATTED
COVER FOR YOUR POOL**

100% KNOW-HOW

SINCE 1985, SPECIALIST MANUFACTURER ABRIBLUE HAS BEEN DESIGNING AND PRODUCING SLATTED SAFETY COVERS. THEY HAVE PRODUCED OVER 134,000 SLATTED COVERS, WITH DELIVERY TO 53 COUNTRIES. EVERY PRODUCT IS UNIQUE AND CUSTOM MADE TO THE NEEDS OF EVERY CUSTOMER.

WHY CHOOSE A SLATTED COVER?

A slatted cover for your swimming pool is a great choice for a number of reasons. It provides an effective barrier against dirt, leaves, and other debris while still allowing light and air to pass through. It is also great for maintaining the temperature of your pool, as the cover helps to trap heat and prevent it from being lost. Finally, it helps to reduce evaporation and chemical loss, meaning that you can save money on refilling and chemical costs.

AN EXTENDED OFFER

We offer different types of pool covers including submerged, above-water, mobile, solar and connected. Whether for a new pool or an existing pool, our wide range will meet your technical requirements and your wishes.

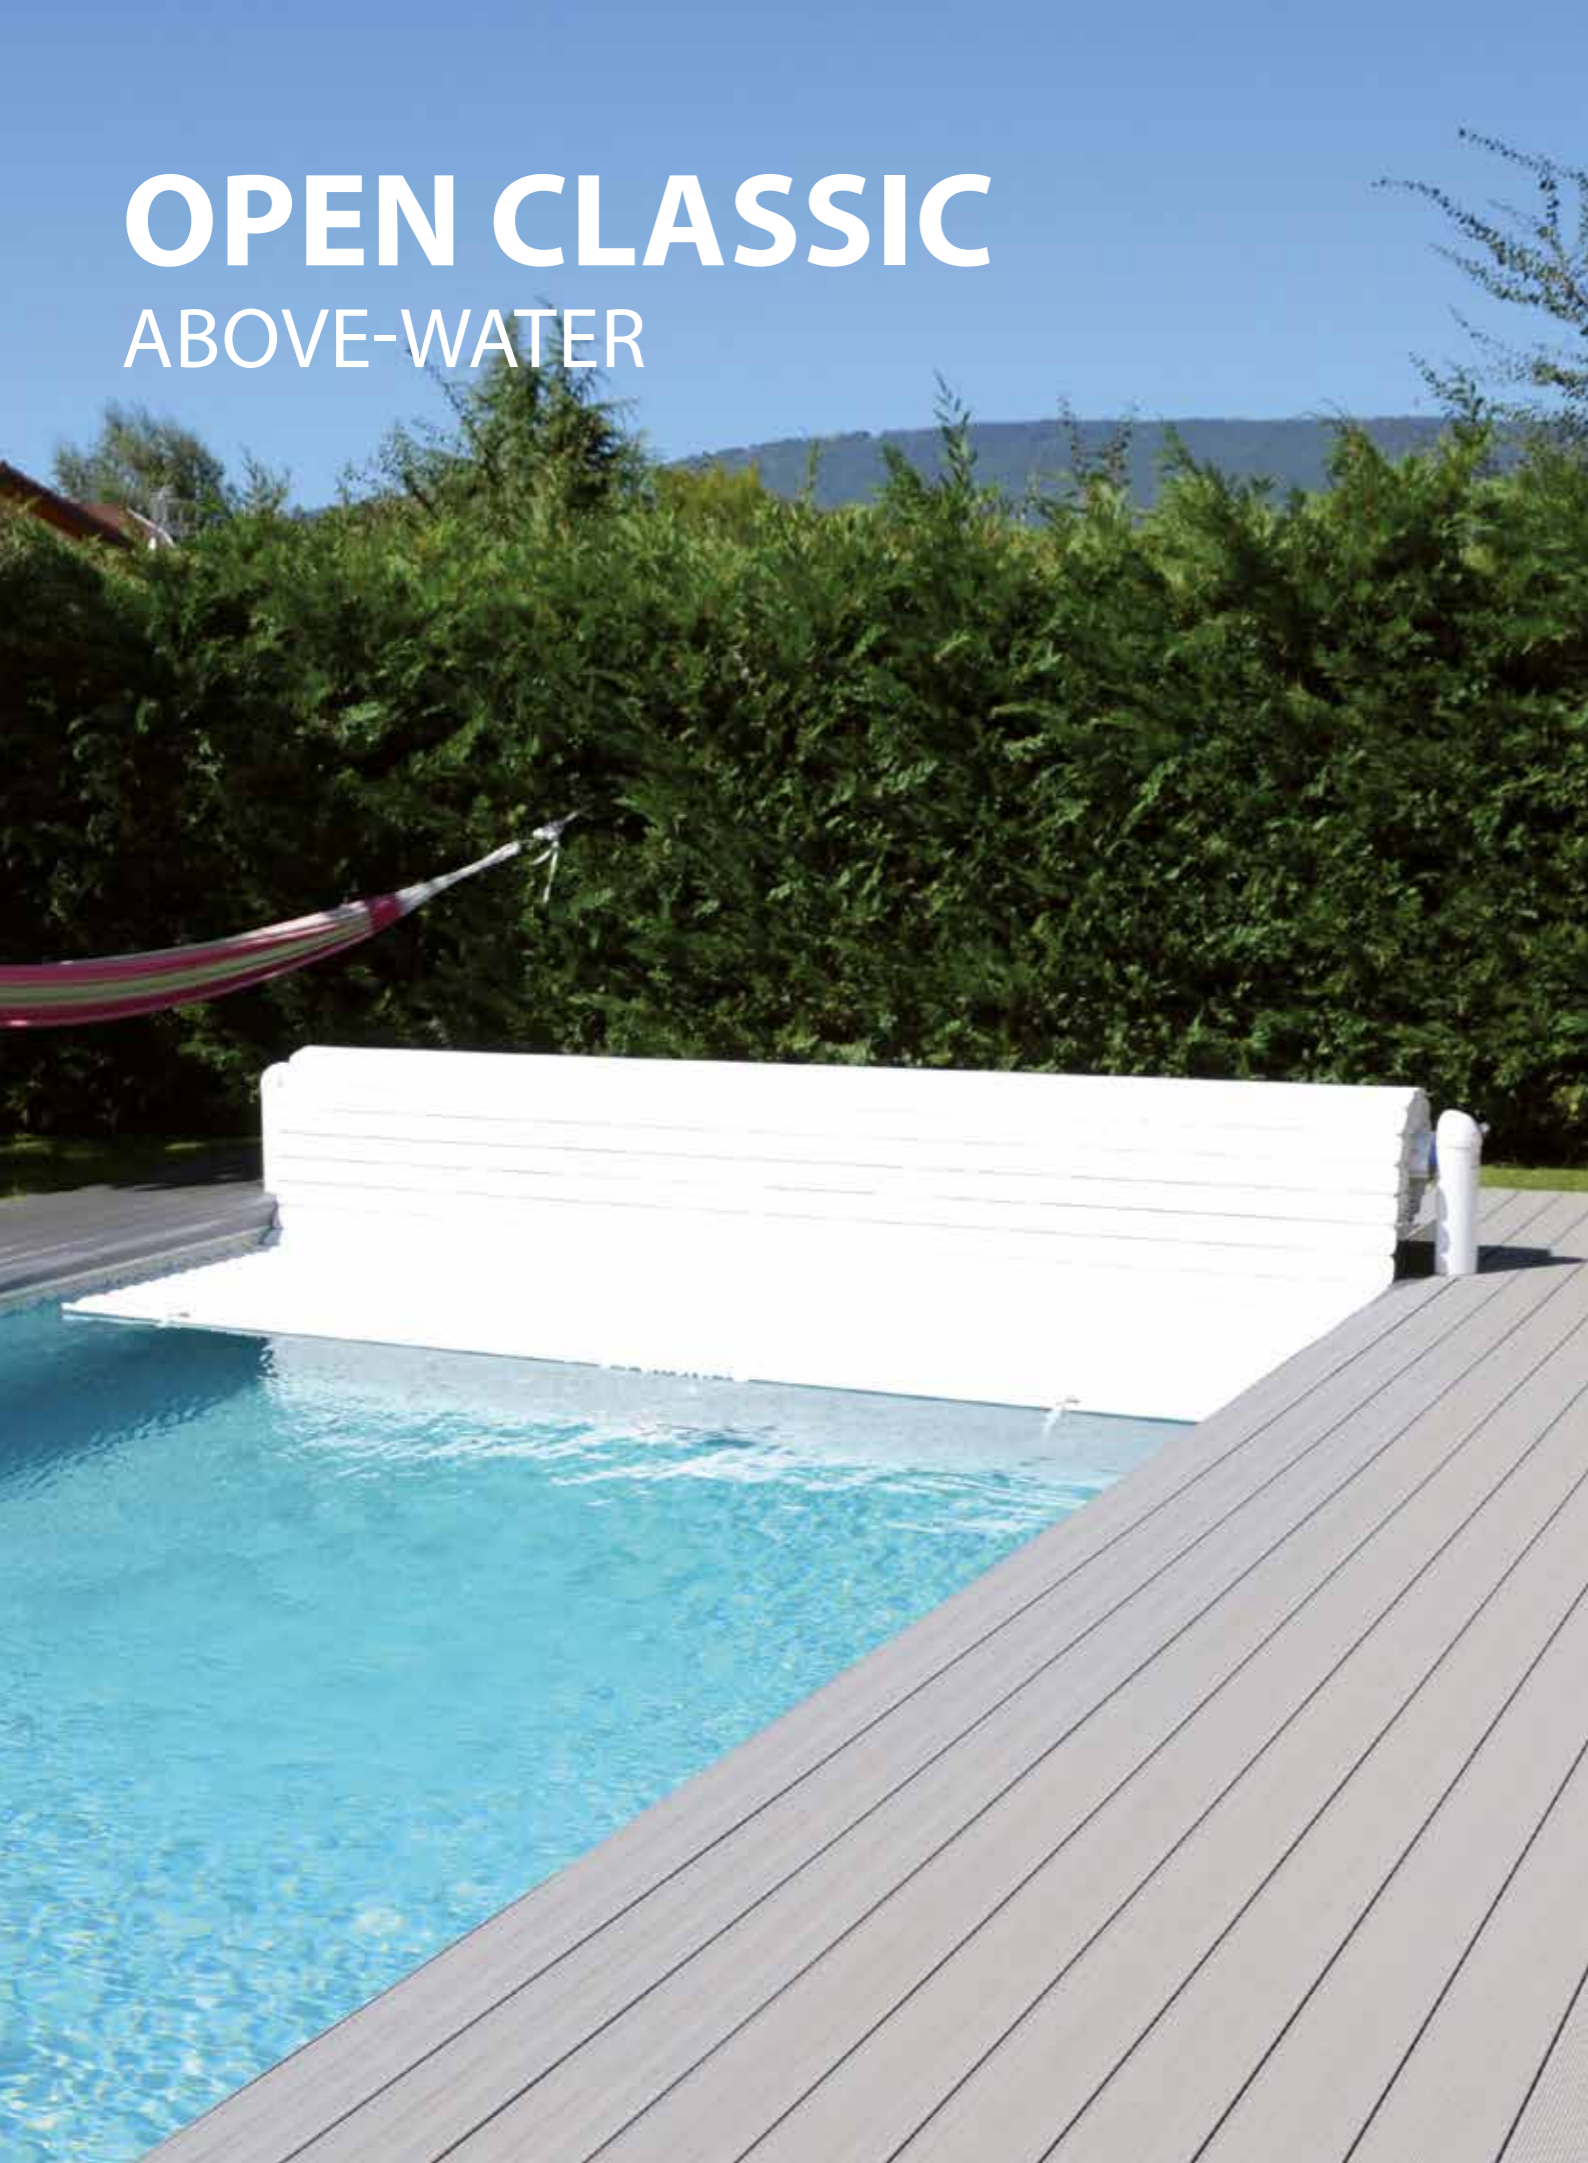

- static 
- submerged 
- connected 
- mobile 
- solar

OPEN CLASSIC

ABOVE-WATER

The OPEN Classic is the most widely sold above-water slatted cover. It is extremely simple to install and can be fitted to every pool. Ideal for new build swimming pools.

**AN EASY SOLUTION
FOR EVERY POOL**

- Features:**
- Mechanical limit switches
 - Built in slow mode
 - Communication with water treatment system for slatted cover position based regulation
 - Declutchable motorisation

- Options:**
- White, sable or light grey colours for the stands
 - 2 types of fastening

without for invisible fixing

with offset fastening plates

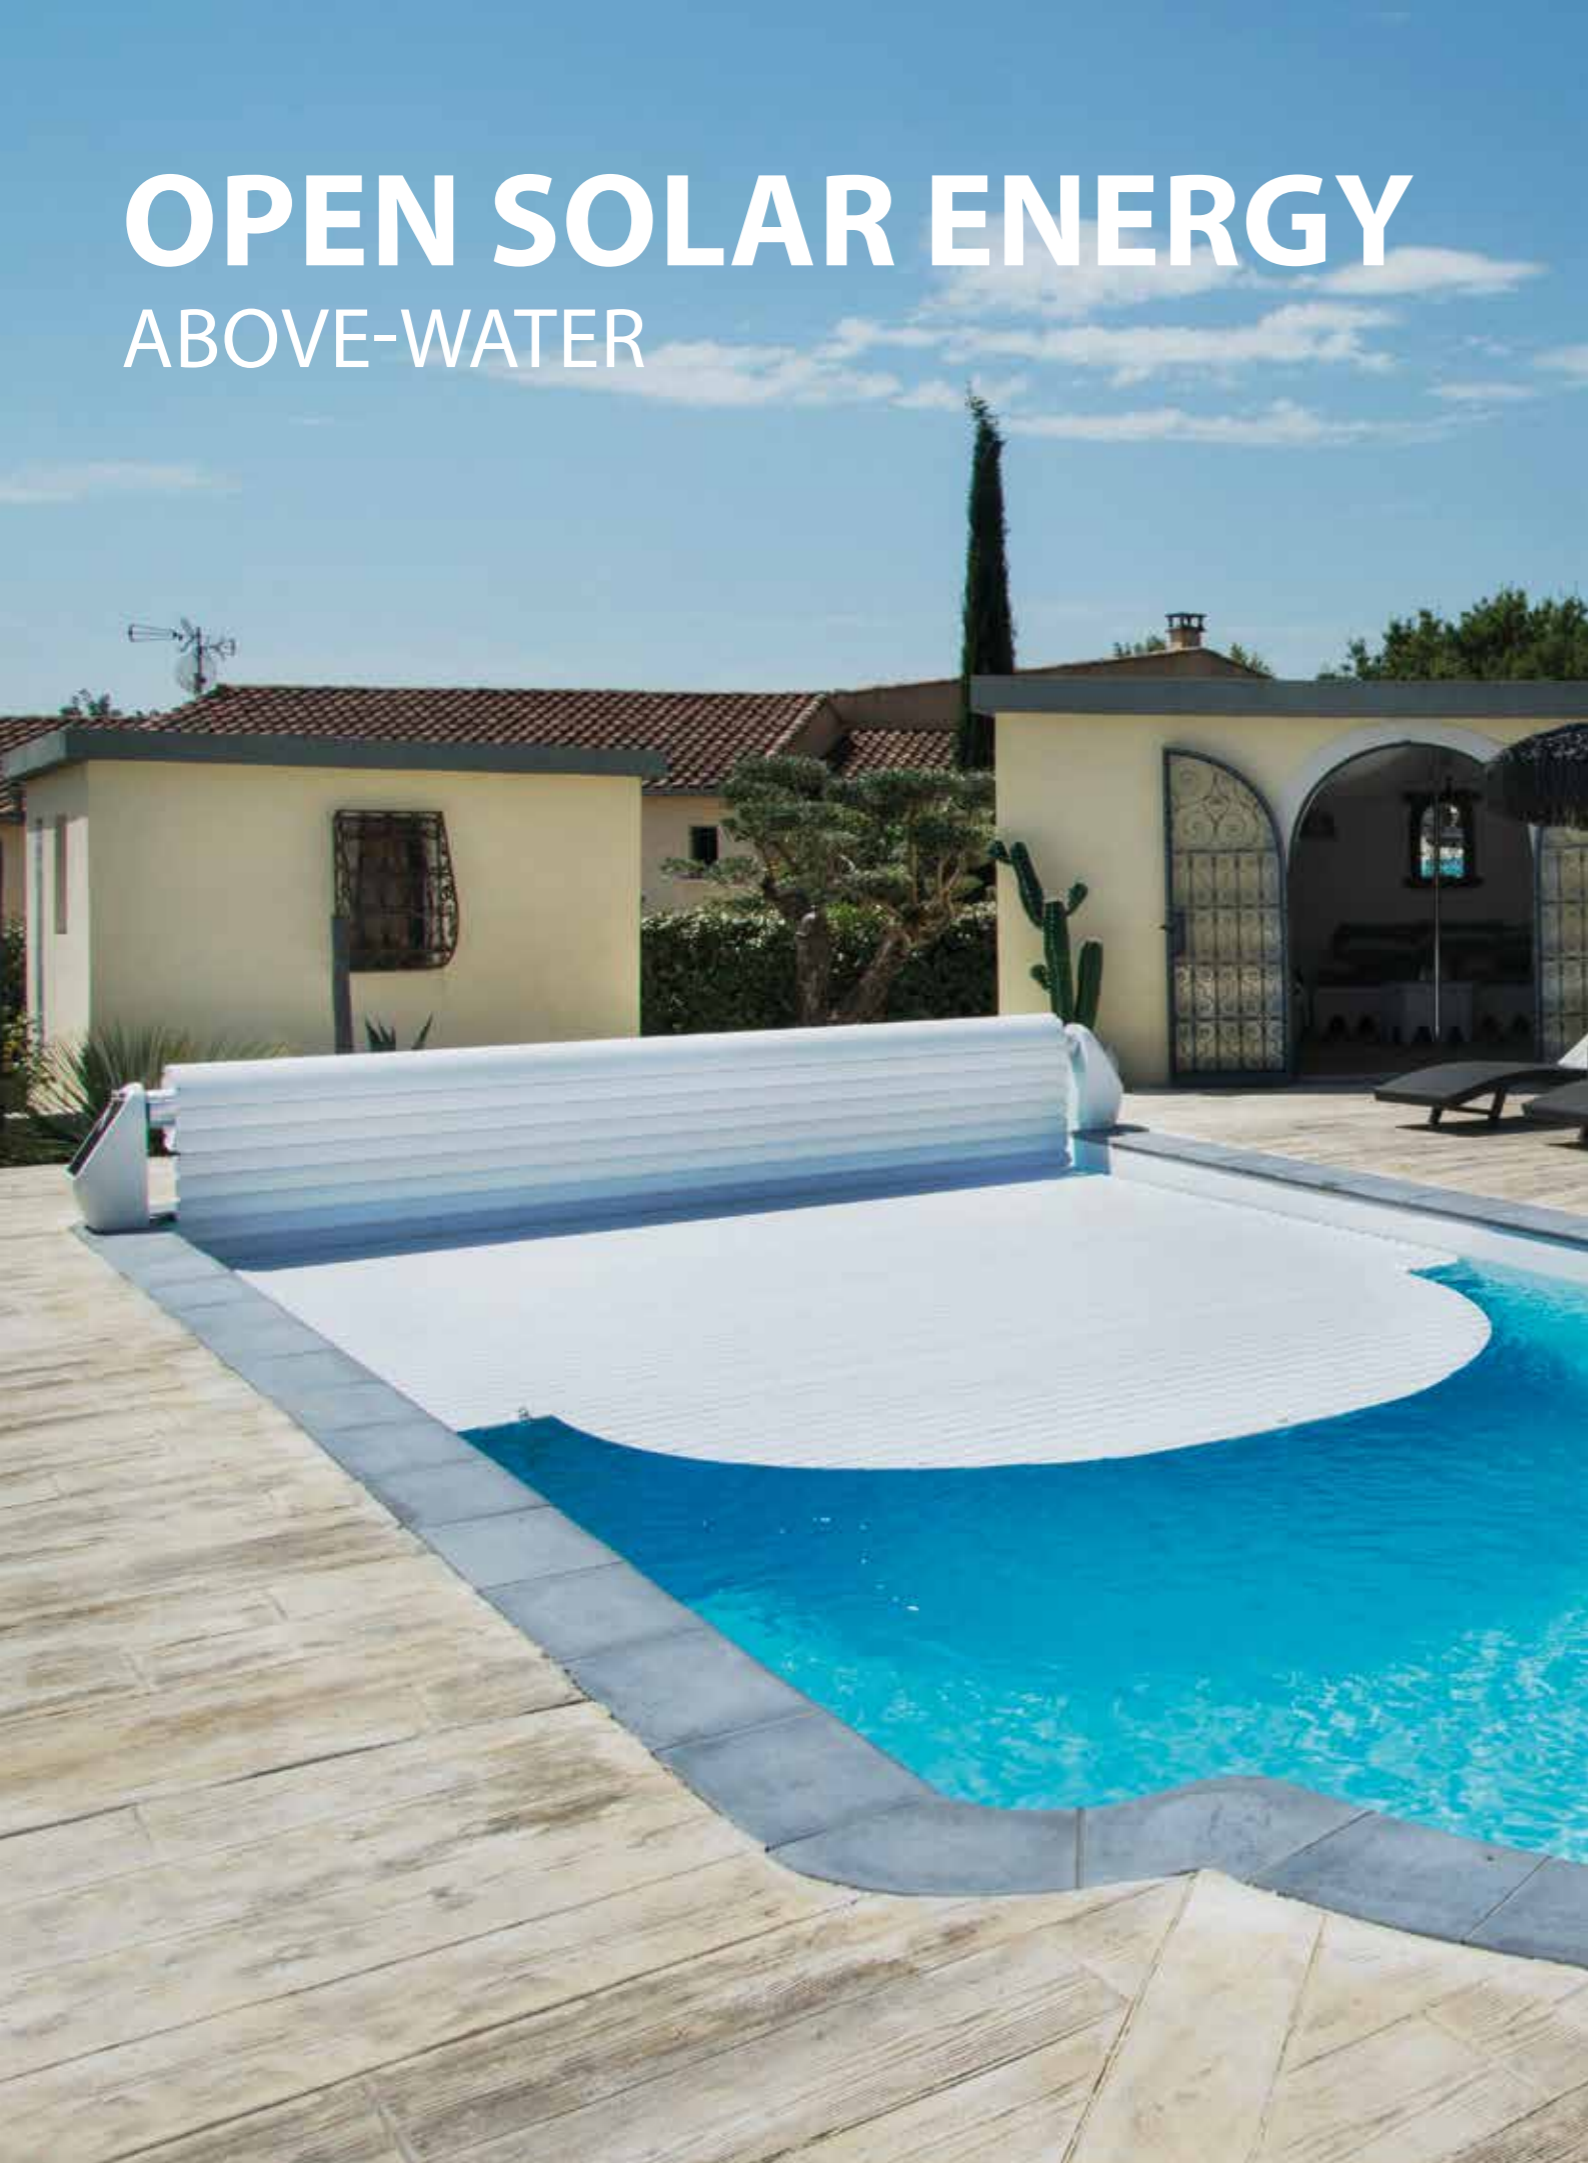

<p>FIELD OF APPLICATION ≥ 2 X 2 M ≤ 7 X 14 M (+ step unit R 1.5 M)</p>	<p>NEW BUILD</p>	<p>REFURBISHMENT</p>	<p>MAINS POWER SUPPLY</p>	<p>3 years MOTOR, SLAT COVER AND STRUCTURE GUARANTEES*</p>	<p>SLOW MODE</p>	<p>COMPLIANT WITH NF P 90-308 STANDARD</p>
---	-------------------------	-----------------------------	----------------------------------	--	-------------------------	---

*See general conditions of sale.

OPEN SOLAR ENERGY

ABOVE-WATER

The OPEN Solar Energy runs anywhere and all year round with just 5 hours of direct sunlight per day. Ideal for refurbishment.

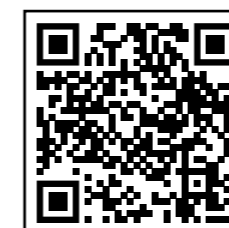

A SUSTAINABLE SOLUTION FOR ANYWHERE AND ALL YEAR ROUND

- Features:**
- Stand alone model without laying any power cables
 - High efficiency solar panel
 - Automatic limit switches
 - Battery safety with warning and reserve function
 - Declutchable motorisation

- Options:**
- 3 colours of stands

Demo video:

OPEN SURF SYSTEM

ABOVE-WATER

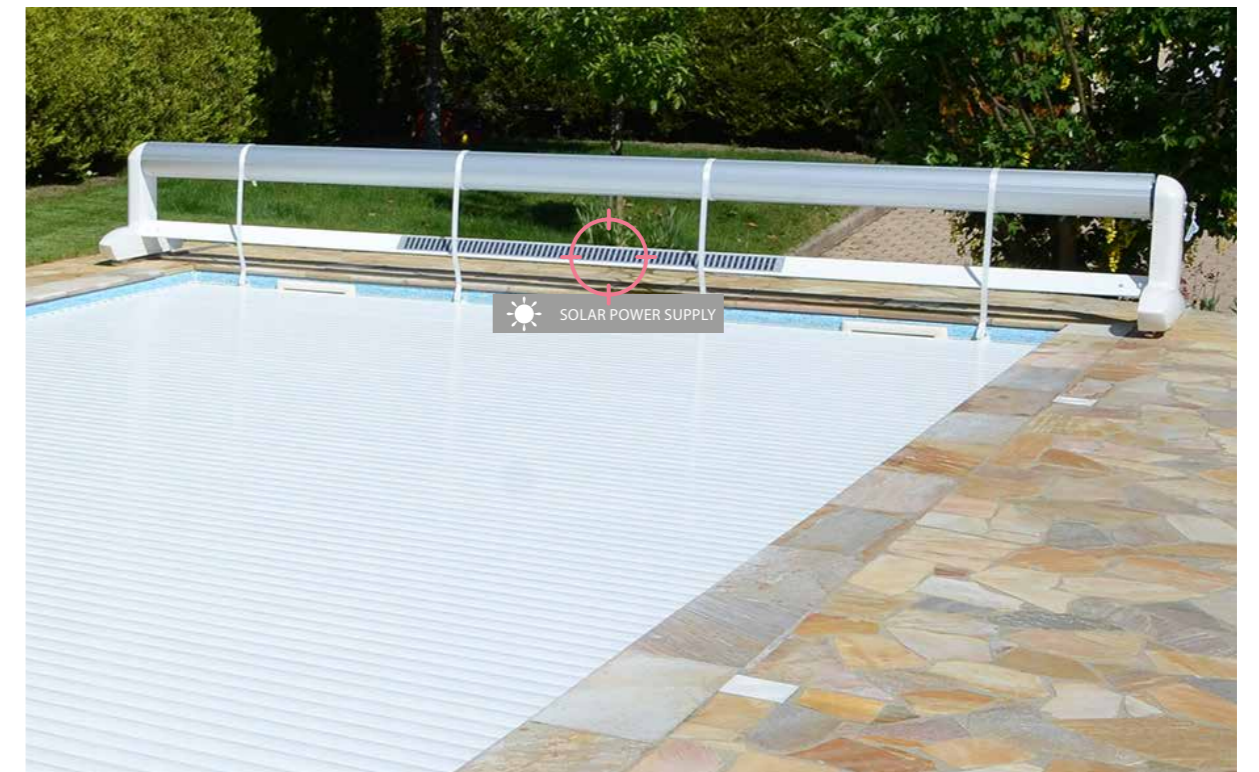

The OPEN SURF System is a mobile above water slatted cover which frees the space around the pool.

**A MOBILE SOLUTION
FOR ALL POOL SHAPES**

- Features:**
- A mobile solution
 - Easy to use by one person
 - Mechanical limit switches
 - Movement on a rail
 - Declutchable motorisation
 - Optional solar power supply

- Options:**
- 3 colours of stands

<p>FIELD OF APPLICATION</p> <p>≥ 2 X 2 M ≤ 6 X 12 M (+ step unit R 1.5 M.)</p>	<p>NEW BUILD</p>	<p>REFURBISHMENT</p>	<p>MAINS POWER SUPPLY</p>	<p>SOLAR POWER SUPPLY</p>	<p>3 years</p>	<p>NFP</p>

BANC

CASED ABOVE-WATER

BANC is an automatic above-water slatted cover encased with PVC imitation wood film. The casing allows for easy installation and maintenance, as well as easy cleaning.

AN AESTHETIC SOLUTION FOR EASY MAINTENANCE

- Features:**
- Removable lid
 - Built in slow mode
 - Mechanical limit switches
 - Declutchable motorisation
 - Optional solar power supply
 - Available with both static and mobile version

- Options:**
- White or wood colour for the case

STATIC

BANC Classic

MOBILE

BANC SURF System: ideal to cover oval, polygon and kidney shaped pools, while preserving pool deck aesthetics.

Both Banc Classic and Banc Surf are available in the Solar Energy version.

 FIELD OF APPLICATION ≥ 2 X 2 M ≤ 6 X 12 M (+ step unit R 1.5 M)	 NEW BUILD	 REFURBISHMENT	 MAINS POWER SUPPLY	 SOLAR POWER SUPPLY	 3 years MOTOR, SLAT COVER AND STRUCTURE GUARANTEES*	 SLOW MODE (BANC CLASSIC)	 COMPLIANT WITH NF P 90-308 STANDARD

BANC DESIGN

CASED ABOVE-WATER

Banc Design is a true piece of outdoor furniture. This slatted cover blends into its environment and offers relaxation areas. This slatted cover can also be controlled remotely.

BANC DESIGN

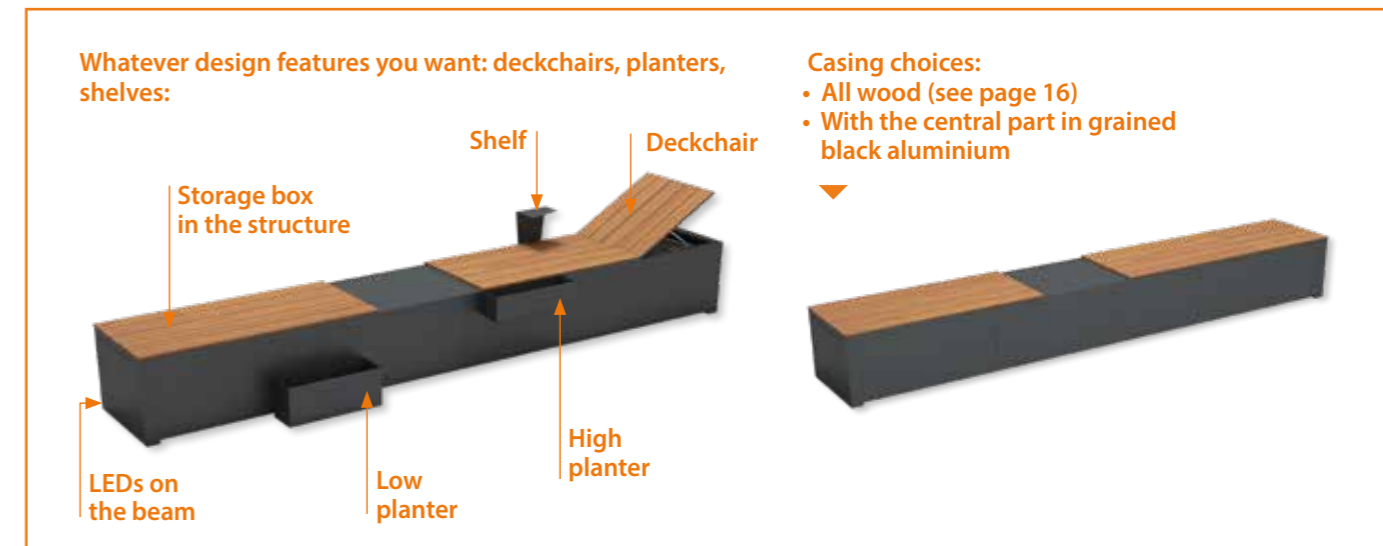

CASED ABOVE-WATER

- Features:**
- Modular design allows different compositions
 - Remotely control opening/closing and mood lighting
 - Built in Slow mode

A MODULAR DESIGN WITH CONNECTIVITY

- Options:**
- White or wood colour for the case

CONNECTIVITY

The specific app lets you control your slatted cover.

OPENING AND CLOSING are controlled by smartphone as standard. Manual control remains possible using the switch built into the end flange.

With the **LED OPTION** and its extensive palette of colours, enhance your pool with your own night mood lighting.

IMM'AX SUBMERGED

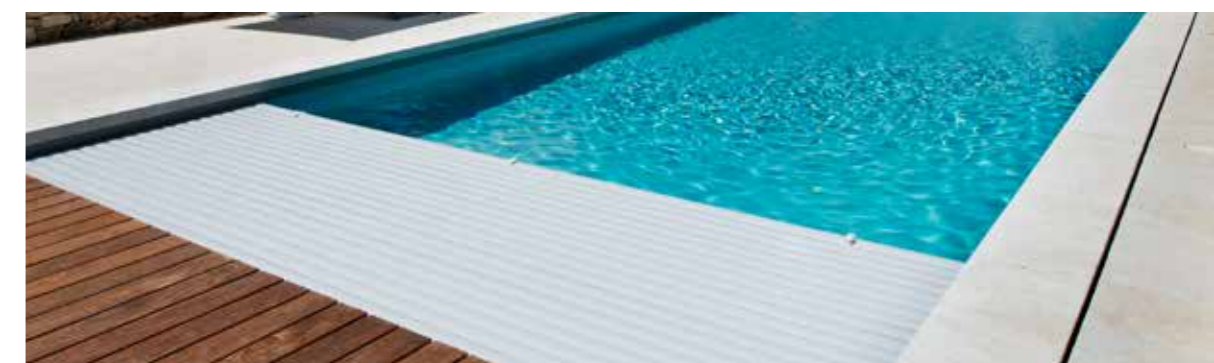

IMM'Ax is a motorised, submerged slatted cover, providing the ideal balance between safety, functionalities, discretion and aesthetics.

AN UNDERWATER DESIGN FOR NEW BUILD AND REFURBISHMENT

- Features:**
- Submerged slatted cover
 - Ideal for new pool and renovation
 - 15 years non corrosion guarantee
 - Remotely cover position control with progress view
 - Water level safety
 - Motorisation security
 - Built in slow mode
 - Declutchable motorisation

- Options:**
- Customise the duckboard over the pit using a choice of 9 colours and materials:

CONNECTIVITY

The specific app lets you control your slatted cover.

The ultimate option used to control and monitor your slatted cover and increase its service life

- Slatted cover position open/closed info with progress view
- Water level safety
- Motorisation security: saves the slatted cover specific operating data and notifies of drifts over time for preventive maintenance

Demovideo:

CUSTOMISE YOUR COVER

WE OFFER BOTH PVC AND PC SLATTED COVERS. PVC COVERS ARE DURABLE AND WEATHER-RESISTANT. PC (POLYCARBONATE) COVERS ARE RELATIVELY MORE EXPENSIVE, HOWEVER THEY ARE MORE DURABLE, IMPACT-RESISTANT, AND HEAT-RESISTANT.

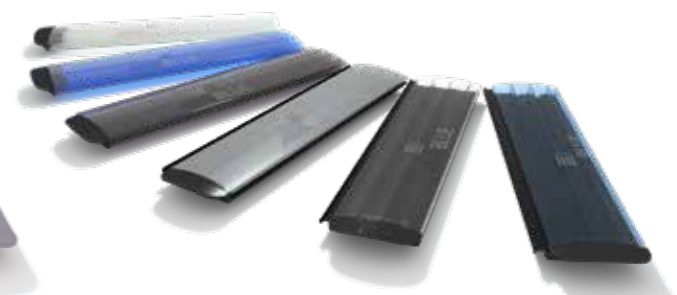

- Features:**
- 83 mm slats with excellent floatability
 - Guaranteed watertightness thanks for ultrasound welding technology
 - UV Treatment

PVC SLATS

White, sable, blue, light grey, galet grey.
Limits evaporation and maintains water temperature.

POLYCARBONATE SLATS

- Transparent, blue, black, solar blue, solar silver, solar transparent
- Water heating power, adds 6 to 8 degrees depending on the colour
- High resistance to extreme conditions (temperature and hail), 8 times stronger than a PVC slat

CUSTOMISE YOUR COVER

Slat finish

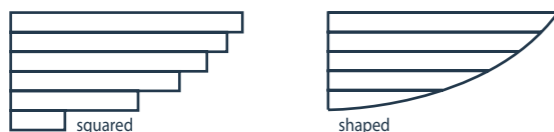

The plugs are fitted with removable wings, used to perfectly adapt to pool dimensions.

Our slatted covers are delivered with a set of wings equipped with guide wheels fitted on the first cover slat, thereby improving movement and limiting friction on the pool covering.

Optional brush wings

They limit the passage of impurities into the pool and reduce the clearance between the brushes and the pool wall. The slats can be cut square (standard finish), or shaped (depending on the slat type) to perfectly adapt to your pool shape.

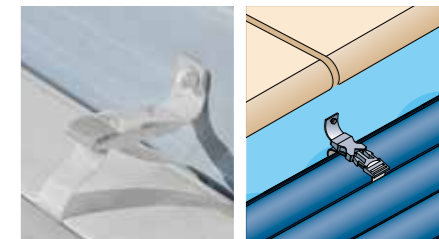

A FASTENING SYSTEM COMPLIANT WITH THE STANDARD.

Safety attachments prevent the slat cover from being lifted and fix it to the pool structure when it is unrolled. It is important that it is always locked, which ensures the safety of the pool. We offer 3 solutions of the fastening system.

Anti-lifting buckle

Attachment strap that can be fitted to all pool slatted covers. With colour options of: White, Sable, Light grey and Galet grey.

Coverlock system

This system is composed of an ergonomic trigger (A) and a harpoon (B). With colour options: White, sable, light grey and galet grey.

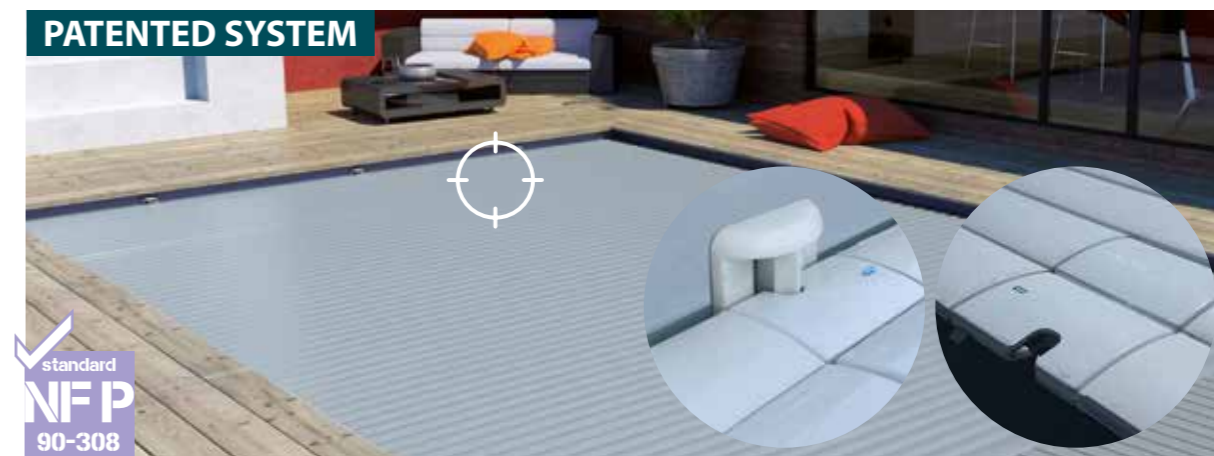

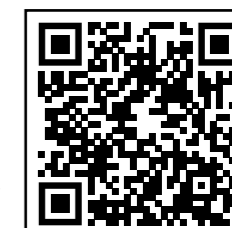

Selfeex

Selfeex is a mechanical and automatic locking system specific to IMM'Ax submerged slatted covers. It requires no manual operations, so there is no risk of forgetting or human error!

- Stand-alone, automatic locking
- Mechanical strength and corrosion resistance
- Adaptable to existing submerged slatted covers
- Adaptable at different positions on the width and water levels
- Available in multiple colours: White, sable, blue, light grey and galet grey

WE SAVE | WE CARE | WE GROW

Watch our CSR main page.

As technical wholesaler, we are strongly aware of our social responsibility. With our Corporate Social Responsibility (CSR) program we want to maximise our impact on the environment positively by doing business in a sustainable way.

SOME OF OUR SUSTAINABLE INITIATIVES:

SUSTAINABLE DISTRIBUTION CENTERS

We have 2 sustainable DC's (in Veghel NL and Poznan PL) where we use geothermal heating, LED lights, we recycle waste and have solar panels.

PACKAGING & PRINT MEDIA

All our packaging and printed media are now made from sustainable and recycled materials. Our boxes, plastic bags, wrapping, pallets, brochures and even our catalogues.

RECYCLE PIPES

We stimulate the recycling of used pipes and minimise the use of virgin materials. We offer our customers special bags to recycle pipes.

GREENER CHOICE PRODUCTS

For many products we offer a 'greener' alternative. Soon you will recognise those by the green leaf in the webshop.

WATERSTARTERS

We believe that every human being should have access to safe and affordable water. Our aim is to renovate or build 600 boreholes in Kenya. www.waterstarters.org

"We can't do something about the number of people on earth, but we can do something about how we handle resources like water."

Marijke Ernest
Sustainability Coordinator

 ALL OUR PRINT MEDIA IS MADE FROM SUSTAINABLE AND RECYCLED MATERIALS TO REDUCE OUR IMPACT ON THE ENVIRONMENT.
