

## New from BERMAD: Next Generation Air Control

BERMAD's new advanced line of air valves now joins its extensive line of hydraulic control valves to create comprehensive control solutions for pressurized pipelines and networks. System engineers and end-users can now design and install far more optimized solutions for their system requirements.

The new line of BERMAD Air Valves include Metal Air Valves ranging from 2" to 8" and Plastic Air Valves from ¾" to 2" for a variety of Water, Sewage and Waste water pipeline and networks offering:

- Higher flow rates
- Low pressure sealing
- Minimal spray effect
- Built-in surge protection (anti-slam feature)
- Versatile design for easy installation
- Reliable structure

BERMAD continues its long tradition of meeting customer needs with efficient, convenient and cost-effective solutions bringing to market today's most advanced air valves for Irrigation, Waterworks and Sewage systems.

**A10/A11**

**Air Release Valve,  
Plastic body,**  
PN10, 3/4"-1", DN20-25

**C10/C11**

**Combination Air Valve,  
Plastic body,**  
PN10, 3/4"-2", DN20-50

**K10**

**Air/Vacuum Air Valve,  
Plastic body,**  
PN10, 3/4"-1", DN20-25

**K10**

**Air/Vacuum Air Valve,  
Plastic body,**  
PN10, 2", DN50

**A30/A31**

**Air Release Valve,  
Plastic body,**  
PN16, 3/4"-1", DN20-25

**C30/C31**

**Combination Air Valve,  
Plastic body,**  
PN16, 3/4"-2", DN20-50

**C70**

**Combination Air Valve,  
Ductile Iron body,  
Down outlet**  
PN16, 2"-8", DN50-200,

**C70**

**Combination Air Valve,  
Ductile Iron body,  
Circular configuration outlet**  
PN16, 2"-8", DN50-200,

**C70-SP**

**Combination Air Valve,  
Ductile Iron body,  
Side outlet with Surge Protection**  
PN16, 2"-8", DN50-200,

**C50**

**Combination Air Valve for  
Sewage and Wastewater,  
Plastic body,  
Side outlet**  
PN10, 2"-3", DN50-80,

**C60**

**Combination Air Valve  
for Sewage and Wastewater,  
Ductile Iron body,  
Side outlet**  
PN16, 2"-3", DN50-80,

**C60-SP**

**Combination Air Valve  
for Sewage and Wastewater,  
Ductile Iron body,  
Side outlet with Surge Protection**  
PN16, 2"-3", DN50-80,

**C65**

**Combination Air Valve for  
Sewage and Wastewater,  
Ductile Iron body,  
Side outlet**  
PN16, 3-4", DN80-100,
