PRODUCT DETAILS

PRODUCT DESCRIPTION AND SPECIFICS

Skilful control of your water treatment system, even from afar!

Bask in the sun worry-free as Soleo Connect automatically manages your filtration and your water treatment system. If you have any doubts, just look at your smartphone to check and you'll be reassured!

The Soleo Connect solutions automatically regulate the parameters of your water, controlling your variable speed pump, your lighting or your pool heating. They can adjust the filtration time depending on the water temperature and therefore improve the water quality by optimising the treatment.

And thanks to its WiFi connection, you can now access, control or modify these parameters from anywhere. So wherever you are, you are reassured and fully in control of your pool.

The Pentair Gateway (sold as an option) offers a direct connection via WiFi or Lora (Long range radio) when the WiFi is not close to the pool room.

Soleo Connect solutions come in three versions

Soleo Connect pH

advanced smart pH regulator that **keeps the pool pH at the ideal level** and adapts the filtration cycles of the variable speed pump

Soleo Connect Rx

smart water treatment solution **which dispenses liquid chlorine** and can manage the filtration cycles of the variable speed pump too

Soleo Connect Salt

smart electrolyser with **pH and ORP regulation** that can control the variable speed filtration pump

And for simplified installation, you can opt for the Soleo Connect e-Box, which incorporates the Soleo Connect pH solution and the pre-wired electronic pool cabinet.

APPLICATIONS

Private Swimming pool

MARKETING AND DISTRIBUTION DETAILS

TRADEGRADE

All SKU's of this product are part of TradeGrade. TradeGrade is a range of products, which are sold exclusively to PIP members. The aim is to protect professionals against online retailers and simple competition on discount prices. With TradeGrade, pool professionals are rewarded with specific benefits, such as higher PIP point rewards when scanning the PIP code with the Pentair Scan App.

PARTNER INCENTIVE PROGRAMME (PIP)

This product is part of the PIP programme. The PIP code on the product can be scanned with the Pentair Scan App to get instantaneous access to various collaterals, such as product brochures, user manuals, spare part lists, troubleshooting and how-to videos. A warranty extension can be activated from the App, whilst a co-branded warranty certificate can be sent to your customers.

MARKETING COLLATERALS

The following new product-related documents are on the corresponding product page of the www.pentairpooleurope.com website as well as on the Pentair Scan App: **technical sheet, drawings, spare parts & exploded views, brochure, user manual, and general catalogue.**

INCOTERMS

Please note the following preferential sales modalities:

- CPT Romentino for EU-27 customers.
- FCA Romentino for non EU-27 customers.

Thank you for your attention.

Best regards,
Pentair marketing team Europe
